Pages (including cover): 1

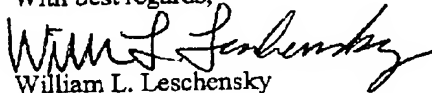

Dear Examiner Haghighatian,

Thank you for the opportunity to meet with you next week to discuss the Rabinowitz et al. patent portfolio. As I mentioned when we spoke, I have recently assumed the position of in-house counsel at Alexza, the assignee of this large patent portfolio. As you have been assigned to examine the vast majority of these cases, and many of the same issues are presented in these cases, I thought it would be useful for us to meet and discuss how we may address these issues. In order to facilitate these discussions, I would like to focus on four specific applications:

- USSN 10/816,567 - Delivery of Compounds for the Treatment of Parkinsons through an Inhalation Route (00032.04CON)
- USSN 10/816,407 - Delivery of Compounds for the Treatment of Parkinsons through an Inhalation Route (00032.05CON)
- USSN 10/769,197 - Delivery of Erectile Dysfunction Drugs through an Inhalation Route (00039.10CON)
- USSN 10/302,010 - Delivery of Caffeine through an Inhalation Route (00012.02R)

Barry Swanson, from the firm of Swanson & Bratschun LLC, will also be participating in the interview with me. I look forward to meeting with you on Wednesday, April 13th at 3:00 pm.

With best regards,

William L. Leschensky
